2. 15% of a trader's profits during the SIM Silver Phase will be used to sponsor the trader, this amount must stay within their account for risk capital. Up to a maximum of \$800.
3. A portion of traders total payout will be kept to build up their risk capital as they progress through levels and milestones.
 - Gold : 50%
 - Platinum : 30%
 - Elite : 20%
 This will build a minimum balance needed in reserve to be kept in a specific milestone. All monies over and above will be paid to traders.

4. If a trader reaches their daily max loss for two consecutive days, their daily max loss will be reduced to half for the following day. (Days are considered by trading activity and not date).
5. If a trader reaches the daily max loss for three consecutive days, they will automatically be demoted.
6. If a trader does not have the minimum risk capital balance required for a level they will be demoted to the nearest level they qualify for with their risk capital balance.
7. If a trader demotes from LIVE (into SIM) and then promotes into LIVE (Gold 1), the second demotion before a promotion will result in trader being sent back to the SIM Phase for one (1) month (trading days) to prove themselves through consistency and profitability.
E.X: Silver 3 -> Gold 1 -> Silver 3 -> Gold 1 -> Silver 3 (must stay in SIM for one (1) month, will revert to Silver 1).
